India's 80th Annual Shrine Circus

March 27-30 State Fairgrounds Arena, Oklahoma City

WELCOME TO THE 80th ANNUAL INDIA SHRINE CIRCUS

We offer more family entertainment for less money than any show. Our circus has become a family tradition. India Shrine presents you the Hamid Circus and they provide you the big-top excitement we started with 82 years ago. It gets bigger and better with each passing year.

India Shrine has among its members, some of the finest men in Oklahoma. Our circus funds are not used to directly support our hospital program, but to maintain our Shrine Center so we may continue our services to the children. We are proud to be Shrine Masons and we stand tall in what we do. On with the show!!!

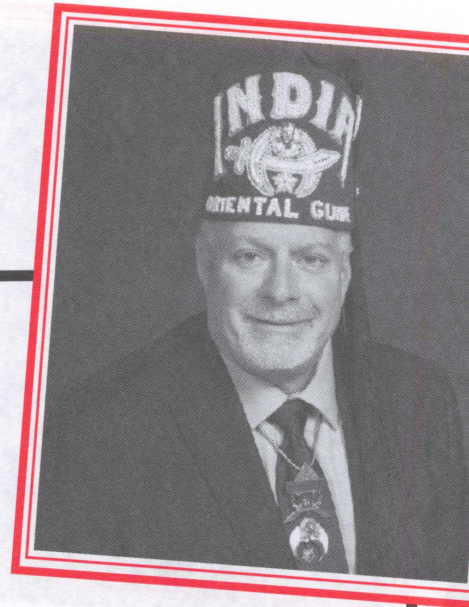

Sincerely,

Edward Burns
Illustrious Potentate

India's 80th Annual Shrine Circus

March 27-30 State Fairgrounds Arena, Oklahoma City

DEAR ADVERTISERS AND PATRONS

Welcome to the 80th Annual Shrine Circus. We at India Shrine, the Circus Committee and I would like to thank all of you who bought advertising and banners, and purchased tickets and Buck-A-Lines.

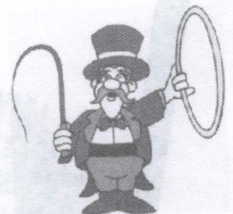

The Nobles have worked very hard and put in long hours to sell this circus and we do sincerely appreciate this great effort. Those who attend the circus will have an enjoyable two and a half hours of entertainment.

This circus makes it possible for us to maintain our dedication for the Oklahoma children in our jurisdiction. Thank you for supporting our circus.

Sincerely,

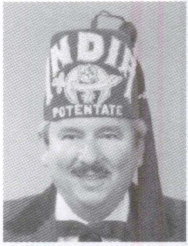

A handwritten signature in cursive script that reads 'Darrell David'.

Darrell David
Circus Chairman

JOHN WESLEY PREBLE

John W. Preble Senior Citizens Performance

The John W. Preble Circus Trust is sponsoring this year's special Friday Morning Performance of the India Shrine Circus. John Wesley Preble was a Past Grand Master of Masons of the State of Oklahoma. When he passed from this world in 1995, he left this trust to be used for the exclusive purpose of paying for the entire Friday Morning Senior Citizens Performance. John was a long time member of India Shrine and because the Senior Citizens of Oklahoma have been very supportive of our grand philanthropy, **-Shriners Hospitals for Children-**, the Preble Family and India Shrine Center salute you by donating this "Special" performance just for you.

A BRIEF HISTORY OF THE CIRCUS

People have been going to circuses in this country for almost 300 years! It has been a popular form of family entertainment from the start and continues so to this day. Where else can you see an elephant perform or a daring young lady hang by her teeth 25 feet in the air?

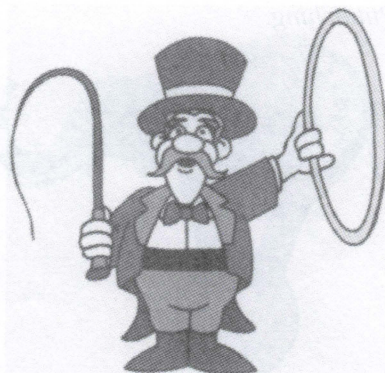

Philip Ashley started it all in 1768. John Ricketts built the first permanent circus building, and in April of 1793 brought this unique form of entertainment to the new world. By 1797 the circus parade, now only a grand memory, was born.

In 1825, the first tented circus was presented by producer J. Purdy Brown. Brown realized the potential of playing every day and the ease of moving the show the tent provided. He could now show to more people, therefore making more money. By 1829 trained exotic animals began appearing in the performances.

The next major advance in the circus world was the entry in 1857 of the Steam Calliope in the circus parade. It was loud and in the days before radio and television was a great way to let the people know that the circus was in town. Circuses in those days used colorful and large circus posters which they plastered all over town before the circus arrived. That is where the term “post no bills” came from, put up by angry building owners who did not want their buildings plastered with circus posters. The glue the billposters used did not easily come off!

This was the beginning of the golden age of the circus. Around the turn of the century, there were over 100 circuses operating. Today there are less than 30 or 40 left. The major sponsor of circus as charity events are the Shriners, who began their association with the business in 1925. That association continues to this day in cities and towns across the land.

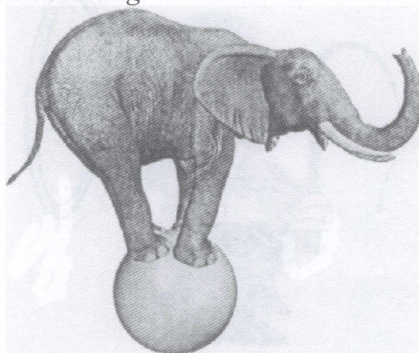

This is only a brief thumbnail sketch of the history of the circus. Today there are many options for family entertainment, with TV, movies, and the internet, but only the circus offers this unique, matchless brand of live family fun. When you attend a performance, you will be well entertained in modern yet very traditional ways and take away many wonderful memories for your whole family to treasure. Think about John Ricketts in that long ago Philadelphia building!

IMPORTANT CIRCUS FACTS

1. Circus animals are better treated and cared for and suffer less abuse than animals in most horse racing stables, dog kennels, and zoos.
2. Most circus animals are exotic, but they are usually born on a circus or in zoos and not taken from the wild.
3. In the wild, 45% of all elephants die by the age of 25-35 from blood poisoning. This poisoning results from damage to toe nails and feet when nails are stubbed and broken off. Our elephants' feet are well cared for by monthly manicures.
4. Our elephants receive the best of everything: food, water, and medical attention. Neetsfoot oil is applied regularly to lubricate their skin. Vaseline is applied around the eyes and tail to further protect those areas.
5. The bull hook is not intended to hurt the elephant, but to control it in cases of emergency. In situations such as explosions, fire, or emergencies, animals run in all directions. As an elephant can weight in excess of 10,000 pounds, we would not want them to run in any direction.
6. Circus animals represent an enormous investment in time, patience, and money for their owners who therefore try to build a lifelong partnership based on mutual respect.
7. Animals performing in circuses help us better understand and respect the tremendous intelligence, creativity, and ability of the animal world.
8. Circus animals enjoy longer lives, are more productive, and suffer less from illness than most other trained and performing animals or animals in the wild.
9. 99% of the 10,000 people surveyed at one circus last year said that the inclusion of exotic animals in the performance is desirable.
10. Don't let animal rights militants, who are an informed minority, spoil your day at the circus. You have every right to be here and we're glad you came. So sit back and enjoy these remarkable performing animals, and their human presenters as they demonstrate their amazing talents.

Much of the information above is taken from an independent study conducted by animal behaviourist Dr. Marthe Kiley-Worthington and commissioned by the Royal Society for the Prevention of Cruelty to Animals, published in 1990 by Little Eco-Farms Publishing.

DID YOU KNOW?

Circus facts are truly amazing. For example...

- ... "Did you know" that Burt Lancaster, Red Skelton, W.C. Fields, David Nelson and Harry James all performed in the circus early in their careers.
- ... that the first flying trapeze act was performed in France on November 12, 1859 by Jules Leotard, the man who also invented the Leotard.
- ... that an elephant eats between 250 and 300 pounds of food each day. Their diet consists of hay, produce and sweet feed.
- ... that the first Human Cannonball act was performed in London, England in 1871 by American Eddie Rivers.
- ... that the Elephant is the largest of all living land mammals, and its trunk has over 100,000 muscles and ligaments, but no bones
- ... that the highest ground supported high wire act ever performed was at a height of 1350 feet by Frenchman Phillipe Petit on a high wire rigged between the towers of the World Trade Center on August 7, 1974.
- ... that in 1904 the famous German animal trainer Willy Hagenbeck performed with 70 Polar Bears in one ring at the Paul Busch Circus in Berlin.
- ... that the tallest stilts ever mastered were those of "Steady Eddy" Wolf and measured 40 feet 9-1/2 inches from ground to ankle.
- ... that an Elephant's gestation period is twenty-two months, the longest of any mammal.
- ... that the highest trapeze act ever performed was presented by Ian Ashole of Great Britain, suspended beneath a hot air balloon at a height of 16,430 feet.
- ... that the record for back somersaults on the flying trapeze is held by Miguel Vasquez of Mexico, who completed the first quadruple somersault on July 10th, 1982.

Certainly there are more unusual circus facts, but these are just a few of the least known and most interesting ones. See you at the circus.
